

# STOCK 'N GO PROGRAM

**It's possible!** You can receive dust collector parts that **consistently fit** and **perform**, and are always **in stock**, ready to ship!

## HOW IT WORKS:

Simply submit a purchase order with part number(s), part descriptions, price, and the End Date, within 2 years of PO date. It's also important to note the quantity you want replenished after the initial order. A credit check will be completed on accounts not previously approved.

U.S. Air Filtration will then manufacture and stock your initial order. Upon your request, we will ship the order and start production on your next order so it's in stock when you need it.

### **CUSTOMER'S RESPONSIBILITIES**

- Customer is responsible for all products that have been manufactured, per the agreement. This includes product in production but not yet in stock.
- Customer agrees to pay invoices in a timely manner, per the agreement.

## BENEFITS:

- **CONSISTENT FIT & PERFORMANCE**
- **NO PRICE INCREASES**
- **ALWAYS IN STOCK & READY TO SHIP**
- **AVOID EXPEDITED PRODUCTION COSTS**

**CALL TODAY 888.221.0312**

# WHAT'S INCLUDED

## ALWAYS IN STOCK READY TO SHIP

No room in your warehouse, no problem! U.S. Air Filtration will keep your next order of dust collection parts in stock at our facility and ready to ship when you need them.

## CONSISTENT FIT & PERFORMANCE

With U.S. Air Filtration's STOCK 'N GO program, consistent fit and performance are guaranteed 100%. Each order is made to your approved specifications, which eliminates fit issues.

## NO PRICE INCREASES

We'll lock in your pricing for the life of your contract.

## NO LEAD TIMES

No more worrying about lead times or expedited shipping costs. We'll have your parts stocked and ready to ship at a moment's notice, all at no extra cost

## AVOID EXPEDITED PRODUCTIONS COSTS

When an emergency happens, no need to call for a new price quote, plan for lead times, or incur costly expedite production costs. Your dust collection parts will be in stock and ready to ship the same day or within 24 hours.

## FLEXIBLE SCHEDULING

Orders can ship in 24 hours with just a phone call. Or set a schedule for a truly hands off approach.

## Frequently Asked Questions

### 1. Who can participate?

*Everyone.* The program was designed for those that battle long lead times, need parts fast, and don't want to pay ever-increasing prices and/or expedite fees. However, anyone can take part in the program with any, or as many, parts as you see fit.

### 2. Which parts are included?

Most replacement parts including filter bags, cages, cartridges, pleated filters, pulse valves, rotary valves, and repair kits are included in this program.

### 3. Is there a penalty if I decide to cancel my agreement?

You can cancel the agreement at any time and are only responsible for products in stock or in production. Cancellation must be made in writing.

### 4. Can parts be shipped on a schedule rather than having to call in?

Yes. If you prefer to have the parts shipped on a specific schedule, just let us know when the parts need to be delivered and we'll ship accordingly.

### 5. How far in advance will my parts be shipped and delivered?

We'll ship your parts to arrive within 3 business days of the delivery date/s you specify.

### 6. Will I be notified once the parts are completed and in stock ready to ship?

Yes. Once your order is completed and in stock in our Tyler, TX warehouse, you will be notified. We will then ship according to your specific schedule or upon request.

### 7. Can I extend my agreement for a longer term?

Yes, we can work with you on the length and terms of your agreement, as needed.

### 8. When will I be billed for my orders?

Invoices will be sent out once orders ship. Invoices will include the cost of the parts, plus shipping. Paying invoices in full within the invoice terms will ensure future shipments are not delayed.

### 9. I may need to replace my dust collector in the next year or so, what happens to my agreement then?

If you decide to upgrade to a USAF dust collection system, your program agreement will be cancelled with no penalty and applied to replacement parts for your new system.
